MOTOR VEHICLE LICENSE TAX SHARE BOLSTERS LOCAL BANK BALANCE; \$29,684 CHECK COMES FROM STATE

City of Campbell, one year and three months old next Sunday, upped its bank balance to approximately \$50,000 yesterday on receipt of \$29,684.55, semi annual share of State Motor Vehicle License fees. Another payment is expected in the latter part of the year, according to City treasurer Ed C. Merrill, and city auditor, William Enochs.

A portion of State Motor Vehicle License fees collected from new car sales, transfers and other vehicle transactions from now until the end of the year, will be due in December. Enochs estimates this amount to total \$3,000 based on the amount City received at this time last year, and in December.

Last payment to city from State Motor License fees was \$3,000. First payment was \$28,306.78.

Money, credited to city's "In Lieu" fund, may be used for state purposes, including street maintenance and repairs, traffic and fire protection of life and property and salaries of police.

Campbell Section Rte. Five Freeway Expected Sooner

Recent cent and a half increase in gasoline prices in California will result in greatly accelerated highway improvement and will probably result in earlier construction of the Campbell section of Route Five Freeway. Nestor Barrett, Campbell planning consultant estimates work on Campbell section of the freeway to begin in about three years, instead of being five years away as revealed to city officials at a recent meeting with State Division of Highway officials.

Under a new amendment to State Division of Highways Act, concerning gas tax increase, Santa Clara County apportionment has been doubled, Barrett said. Originally slated for \$13 million in State Gas Tax Funds, Santa Clara County will receive approximately \$26 million for the next 10 year period, Barrett said.

City attorney Joseph Bonacina at Monday Night's meeting read a form of agreement from State Division of Highways for council's approval and consideration. Council members were of the opinion that Highway division should define specifications for Hamilton Ave interchange rather than issue a blanket provision.

Fruit Seller Granted Permit; Sees Judge Today

Paul Knoll, spokesman for Mayfair Packing Company, successfully argued to secure a use permit to sell cherries at a stand on corner of San Jose-Los Gatos Rd and Hamilton Ave., at City Council Meeting Monday night, but was arrested by Campbell officers immediately afterward for violation of city's interim zoning ordinance. He was released immediately afterward on his own recognizance and will appear before Judge Paul W. Crawford, in Campbell Justice Court this afternoon at 2 p. m.

City attorney, Joseph A. Bonacina, entrusted with enforcement of City's ordinances served notice on the firm over two weeks ago. A complaint signed by David Keesling, owner of a general fruit stand across the street from that operated by Mayfair Packing Co. charged that the company was selling fruit without a city permit.

Knoll was granted the permit Monday night for a two-week period, provided some means were taken to eliminate dust in the area. Only protest against issuance of the permit was contained in a letter read at Council meeting from W. N. Lloyd. Lloyd said stand created a traffic hazard due to dust.

He said he had not known a permit was required to sell fruit grown on the property.

WASHINGTON AND "SMALL BUSINESS" By C. WILSON HARDER

George Keith Funston is a man to watch these days.

Not only is he president of the New York Stock Exchange, but he is also selling an idea.

The idea has power, too, because it protects entrenched interests, yet is dramatized as something to benefit the "little man."

Washington observers say it is the greatest razzle-dazzle promotion since "30 every Thursday."

Funston wants to permit the "little man" to buy, as he terms it, a share in American industry, through installment buying of common stocks.

However, sales of common stocks on same basis as washing machines and autos would be restricted to common stocks listed on the New York Stock Exchange.

This qualification is interesting.

Successful public acceptance of this plan would not only siphon off capital used to start new enterprises, but would also entrench firms financially powerful enough to have their common stock listed. Thousands of people who are buying X Gadget Common on a dollar down, a dollar a week basis, can easily be led to take economic and political measures to keep a new, independent competitive Gadget company from endangering X Gadget in the market place.

Also big profits would accrue to stock traders who would benefit by resulting inflation of common stock prices.

© National Federation of Independent Business

Actually, the plan would supply needed bolstering to common stock trading volume, because "insiders" are turning more to preferred stocks for investment purposes.

There are many reasons for this trend. Among them is concern over management action in some of the bigger corporations. Not only are top executives receiving six figure salaries, they are also being pledged big retirement salaries, which in some cases, are to be handed down to their heirs.

In final analysis, stockholders pay for these elaborate frills, but such is the nature of the business of some corporations, protests by even large segments of stockholders are fruitless.

But in a corporation set up there is usually preferred and common stock with preferred stock ordinarily taking precedence in payment of dividends. This preferred stock is more attractive.

Thus Funston plans, it is felt, to scatter the chaff over the nation, while the good, sound kernels are held by professional investors and traders.

There is also a moral side. Nothing guarantees the price constancy of any common stock. Usually, price fluctuates with the amount of dividends paid.

Thus, Funston's plan would permit people to gamble on the installment plan.

This aspect has led some observers to say that if this plan is approved, there is only one more logical step to be taken.

That would be to legalize racing bookmakers who will advertise "Bets placed on ten per cent down with 36 months to pay the balance."

As the highlight of the meeting, Mrs. J. C. Bagby, who welcomed the past presidents, honored William Hennessey, then spoke in behalf of "Hope for Retarded Children." LETTERS TO THE EDITOR

Opinions expressed in letters to this department do not necessarily reflect the editorial policy of this paper.
A Reno housewife, tired of her house, and tired of her life as a wife, has come up with an idea for relieving the trials of her troubled compatriots. She has suggested a chain letter to end all chain letters. The following letter was read at Orchard City Grange at its last meeting, by Mrs. A. J. Emery and resubmitted to the Campbell Press. We, in turn, pass it on for what it is worth.
"Dear Friend,"
This chain letter started in Reno in the hope of bringing relief to tired housewives.
Unlike most chain letters, this does not cost any money—simply send a copy of this letter to five of your housewife friends who are equally tired. Then bundle up your husband and send him to the woman whose name is at the top of the list and add your name to the bottom of it.
When your name comes to the top of the list you will receive 16,178 men and some of them will be dandies.
Have faith and don't break the chain. One woman broke the chain and got her old man back.
A Tired Housewife
Sincerely,
P. S. At this date of writing a friend of mine has received 356 men. They buried her yesterday and everyone said she had a smile on her face for the first time in years.

Agriculture projects were also reported coming along well, with the chicken project completed and the rabbits multiplying as rapidly as was expected.
Mrs. Karl Belser, leader, was able to attend the last meeting, according to club members, after missing the meeting before due to a serious operation.

OUR DEMOCRACY — by Mat
BORN TINKERERS
IN THIS AGE OF SPECIALIZATION, AMERICANS STILL LIKE TO ROLL UP THEIR SLEEVES AND TRY THEIR HANDS AROUND THE HOUSE. IT DOESN'T REALLY MATTER MUCH WHAT IT IS — IF IT NEEDS FIXING, THEY'LL TRY.

THIS IDEA OF TINKERING HAS HELPED MAKE US WHAT WE ARE. IT BUILDS QUALITIES OF INGENUITY AND ADAPTABILITY AND SELF-RELIANCE. IT CAN DEVELOP SPECIAL ABILITIES, OCCASIONALLY STIMULATES INVENTIVE GENIUS — SOME OF AMERICA'S GREATEST INVENTORS HAVE BEEN "BORN TINKERERS."

WE DON'T KNOW EVERYTHING, BUT—
Only a few decades ago most people thought that everything would soon be known; that everything would be discovered; and that all scientific data would be recorded in its proper place. The fallacy of this has become evident. The more people know and learn, the greater becomes the unknown. When compared with
the sum total of all knowledge, pharmaceutical knowledge seems insignificant indeed. However, when a prescription must be compounded to restore health or to save life, pharmaceutical knowledge surpasses all other things in importance. We do not pretend to know all things, but when it's medicine you need we are prepared to meet every emergency.

American Business Behind The Scenes

by Reynold Knight

NEW YORK, June 15—The change in the financial climate over the last four or five months is marked. The changing level of interest rates will have a funda- mental effect on savings and in- vestment in the next few years.

That is a long-term consideration. The small businessman, the salaried man, the home buyer, and the rest of us minor economic cogs should remember, however, that no vast changes will occur over night. Business will be good for many months hence on the basis of factors which are already oper- ating and can't reverse themselves in a hurry.

In May industry and regional governments—states, cities, local taxing districts and special author- ities—floated \$1.1 billion of bor- rowings. Public utilities borrowed \$230 million of this.

Building plans may have been scaled down from the early-1953 estimate of \$27 billion, but they are still far above last year's. They will sustain the economy for a time at least against anything but an absolute—and unthinkable—collapse of demand for consumer goods.

LEAVE IT TO THE GIRLS—Housewives of tomorrow may be better businessmen than their hus- bands, it appears from a national letter-writing contest on free en- terprise. Of 78 prize winners in the Sheaffer Pen Company's letter competition on "How I Benefit from Free Competitive Enter- prise", 47 were girls. Girls took first and third places.

posed annexation to each person to who lands within the territory proposed to be annexed is assessed in the last equalized county as- sessment roll available on the date the proceedings were initiated, at the address shown on said assess- ment roll or as known to said Clerk, and to any person who has filed his name and address of the lands in which he has any interest, either legal or equitable with said Clerk.

PASSED AND ADOPTED THIS 22nd day of June, 1952, by the fol- lowing vote:

AYES: Councilmen: Arends, Dahl, Gomes, Morton
NOES: Councilmen: None
ABSENT: Councilmen: Jensen

June 25, July 2.

Carolyn Heintz, 14, a freshman at Utica (N.Y.) Catholic Academy, won first prize of \$250 plus an all- expense trip to Washington, D. C. She competed with about 10,000 other students, mostly high school seniors and juniors, from every state, Hawaii and Alaska.

"Contest entries from girls dis- closed a sound understanding of free enterprise, its benefits to the individual and its contributions to American progress", said Walter A. Sheaffer II, president of the sponsoring company. "Consumer expenditure figures show the housewife controls the American family's pursestrings. Those purse- strings will be in good hands for the coming generation."

THINGS TO COME—A respira- tor for workers in paint spray and chemical fogs has a soft aluminum face piece which can be fitted to the wearer—A fish-scaling and cleaning knife with a large cork handle can't be lost overboard. It floats.....From Germany comes an automatic coffee-maker to plug into the dashboard of your auto- mobile....A more flexible insula- tor reduces the time needed to put up an electric fence to restrain cattle....A gadget for examining a diamond makes it look 20 times as large as it appears on your finger.

PASSED-ON SAVINGS—Behind the recent sharp price reductions on the Henry J. models of Kaiser Motors are benefits derived from expanded operations. The company has embarked on the largest ex- pansion program in its history. Company spokesmen say this is resulting in lower production costs for engine and other parts.

Benefits thus passed on to the public run as high as \$150 per car.

This is in sharp contrast to the probability of price increases by other manufacturers as a result of the new labor agreements in the automobile industry.

IT ISN'T PEACE—Whatever will come from a cease-fire agreement in Korea, the Administration has begun to emphasize, it won't be peace. All the problems that have been vexing the nation will remain—at home and abroad.

Just a brief listing from sources close to President Eisenhower:

The drive to keep taxes up until the budget is balanced will con- tinue. No new cuts in defense, be- yond the controversial ones al- ready made, are contemplated. European allies will still be pressed to unite to defend themselves. The demand that the Russians show goodwill by some deed like getting out of Austria stands.

Of course, these things are de- termined in the end by outcome of pressure from Congress. What the President plans is not always what comes to pass. Response to recent TV and personal appear- ances seem to show, however, that Ike's great prestige with the voter still exists, and an end to the Ko- rean bloodletting will raise it fur- ther.

BITS O' BUSINESS—The Na- tional Association of Real Estate Boards is launching a private mortgage pool to take the place of government discounting of home sales paper....The last week of May and the first week of June saw steel output above 100 per cent of theoretical capacity.... Hungary is supposed to be next of the Red satellites to revalue its currency, wiping out workers' savings to make them work hard- er....Power mower makers report

RETURN HOME**

Mrs. Ira Grim and Mrs. Louis A. Schad have returned from a two week's motor trip to Oregon. Mrs. Grim visited with her son and family the F. Arnold Grim's in Portland. High light of this visit was a trip to Mt. Hood to take part in the spring snow sports. Mrs. Schad drove on to Tillamook to visit Mrs. Bernard Swanson, a niece who is also a niece of Mrs. G. K. Schrader, of Union Ave.

Short stops were also made to call on old friends now living in Mt. Angel, the Joseph Butsches, former resident of North Winches- ter Ave. and also at Willows, to drop in on the Leon Thomases, nephew of Mrs. Schad. Mr. But- scher presently heads the State Fire Patrol in the central area.

The motorists reported ideal traveling conditions both ways.

satisfaction.—Vice President Nixon said at the conclusion of the breakfast that more information about foreign policy had been given us in that one session than he had received in six years in congress.

ROSENBERG TRIAL SIDE-LIGHT—The thousands of demonstrators here to support the Rosenbergs' plea for clemency paid only \$5.00 for a roundtrip rail ticket from New York to Washington. I wonder who paid the balance.

WASHINGTON'S LIGHTER SIDE—Washington's social leaders are engaged in the battle of calling cards this season, with protocol authorities disagreeing bitterly over which corner of the calling card should be turned up. For those who didn't realize that a calling card should be mutilated before it is left, let me quote Carolyn Hagner Shaw, editor of the Social List of Washington. "Top left corner turned up means a purely social visit. . . lower right corner means a visit of sympathy

lower left corner turned up means the caller is leaving town and has stopped by to say farewell." If your secretary or chauffeur leaves your cards, no corner is turned up, according to Mrs. Shaw. At the White House you should leave five cards—three of your husband's and two of your own. This is because the lady caller leaves one of her cards for each woman in the household (Mrs. Eisenhower and Mrs. Doud) and one of her husband's cards for each of the ladies plus one for the President. All five cards are to be put in a white envelope and left with the gate guard. With this system, Washington socialites are able to call on all of their friends in a single afternoon—without ever seeing any of them.

The second largest Pismo clam of which there is a record was 7-1/2 inches in diameter, weighed three pounds, 13 ounces and was 27 years old.

DO YOU REMEMBER?—Do you remember when Grandmother carried her money in a large pocket in the side seam of her flannel petticoat and the clerk obligingly turned his back while she obtained the money covering her purchase?

Do you remember when low cut shoes or oxfords were worn only in the summer?

CALIFORNIA SUPPLY SLATES GAMES AT CAMPBELL DIAMOND THIS WEEK

The rambling Nomads, who have traveled almost 2,000 miles into all parts of Northern California, in setting up a season's record of 24 wins in 33 starts, have now developed into one of the best softball teams to represent Santa Clara County since the days of the old Globe Printers and Hollister Cowboys.

The veteran Bud Bosque and the younger Pete Sanders, rated among Northern California fans as two of the best pitchers in the business today, are now taking turns on the mound. Bosque will pitch Friday night with Sanders working Saturday night.

The Jesters Club have one of the best teams in the entire state. Hurling for them is Bobby Beckham, who needs no introduction to local softball fans. And he is backed by a hard-hitting speedy, fast-fielding club that has beaten just about every other good club in Northern California including California Supply Co., whom they shellacked 8 to 2, at Stockton a few weeks ago.

Cal Supply now ranks as one of the two undefeated teams in the San Jose City Tournament, and has entered the Modesto State Hospital Invitational Tournament at Modesto, July 2 to 6, inclusive.

An infield quartet that includes Bill Benevich at first base, Jack Casey at second, Gene Menges at short, and Jake Wood at third has caused fans everywhere to open their eyes with amazement by their sensational fielding in recent games. Backed by a very potent four man outfield that now includes Campbell's own Wayne Buck in addition to Manager Art Le Deit, Buster Fontaine and speedy young Don Ouellette, the fielding of the entire team in recent games has been super-sensational.

So has the hitting Art Le Deit.

THE CRACKER BARREL

Partners—and I call you that because if it wasn't for you folks, we'd have to quit. Anyway, you are good to us and we thank you.

The other day some folks came in the store and we was talkin' as home folks will do, and our conversation drifted to weighin' up stuff and meat and potatoes. Well, we got to talkin' about what the Bible said about weight. Old Solomon uttered some memorable words as we find in Proverbs 11:1: "A false balance is abomination to the Lord, but a just weight is His delight." My friends, when we weigh anything in this store you are welcome to look at the scales if you wish. We ain't here to cheat anyone, but to give fair weight, fair prices and a smile along with it.

Really, friends, we know that the Bible is God's word and it is the best book in the whole world. It is a guiding light to all of us. It shows us a way when there seems to be no way. It points to something better ahead if we will but do as it says.

Last week we urged you to go to Church—Did you go? Friends, go to Church this Sunday. Not only does it do you good, but it helps to make our country stronger. And—if we ever expect to keep our country safe, we must rely upon God for guidance. You absolutely can not leave God out of the picture and expect to be secure.

Well—I almost forgot our prices. Anyway, we have some very good everyday prices. In fact they are so good we are just going to pass up a special because they are all special. We want you to come in and see. We'll be seeing you. And again—THANK YOU.
